

ADMINISTRATIVE - INTERNAL USE ONLY

NFAC # 1217-78.....

23 March 1978

MEMORANDUM FOR: Associate Director-Management, NFAC

FROM : Associate Coordinator for Academic Relations
and External Analytical Support

SUBJECT : Request to Speak at Several Campuses

1. I have been invited by Dr. Olin Sansbury, Vice President of the University of South Carolina at Spartanburg, to lecture at his campus and at others in the Spartanburg area. A copy of his letter is attached.

2. Sansbury has assured me that there will be no media coverage of my visit and that my comments will be off the record. My presentations at the various schools will be to specific classes rather than general audiences. The contents of my talks will of course be completely unclassified, and will derive from the paper I presented recently at the International Studies Association and other lectures I have delivered before academic groups.

3. This memo then, is to request Agency sponsorship of this activity, including travel and subsistence expenses for the period of April 12-14.

Dear [REDACTED]

The University of South Carolina at Spartanburg would like to invite you to visit our campus and several nearby campuses to talk about foreign intelligence and the role of the CIA. Already, Wofford College and Spartanburg Methodist College have confirmed specific classes they would like for you to visit. Three other institutions in the region have been contacted but have not responded as yet. We can, I believe, expect a positive response from at least two.

We realize that there can be no media coverage of your visit and that your comments will be off the record. The dates preferred for your visit are April 13 and 14. We would, of course, handle all local arrangements for you. If these dates are suitable, we can work out the details by telephone.

I enjoyed my visit in Washington last month and look forward to hosting you in Spartanburg.

Sincerely,

A handwritten signature in dark ink, appearing to be "Olin B. Sansbury, Jr.".

Olin B. Sansbury, Jr.
Vice President
